Windows 10	E80.00	May 29, 2009	July 13, 2009	August 24, 2009

Escolha a versão correta do software. “VPN Standard Client”

Endpoint Security Homepage is now available.

Notes:

- To support SmartLog or SmartView Tracker reporting with Endpoint Security Clients for all supported servers (except R80.20 and higher), you must update the log schema. Follow instructions in sk106662.
- Starting from E80.85, anonymized incident related data is sent to Check Point ThreatCloud, by default. See sk129753.
- This release includes all limitations of earlier releases unless explicitly shown as resolved.

The image shows a screenshot of a web browser window displaying a security warning from Check Point Mobile. The window title is "Check Point Mobile". The header of the dialog box features the "Check Point Mobile" text on the left and the "Check Point SOFTWARE TECHNOLOGIES LTD." logo on the right. The main content of the dialog box is as follows:

- A red shield icon with a white 'X' is positioned to the left of the heading: "The site's security certificate is not trusted!".
- Below the heading, a red text box contains the message: "While verifying the site's certificate, possible security risks were discovered. Press 'Details' for more information."
- A "Details" button is located below the red text box.
- The text "Check Point Mobile is connecting to site:" is followed by a text box containing "FWESTGL VPN Certificate".
- The text "Which has the following fingerprint:" is followed by a text box containing "ETC GLUM AJAR MARK BUDD SUCH KALE HAVE SURF IONS BUSH FUN".
- A paragraph of text states: "We strongly recommend that you contact your system administrator about these issues. By clicking 'Trust and Continue', you confirm that you are aware of the risks and agree to continue."
- At the bottom, there are two buttons: "Trust and Continue" (which is highlighted with a red rectangular border) and "Cancel".
